

# Personal Invitation!

## Inno4Life educational sessions day on applied technical Innovations for pharma packaging processes.

November 24, Rotterdam, The Netherlands

Inno4Life partners with Systech-one | GAMP | ABB Robotics

**Audience:** EU based: Global project engineers/ Sr. Operation managers / Engineering managers / Production managers

### Educational sessions:

#### Track and trace

**Systech one** | Alastair Taylor,  
Director of Sales Europe at Systech  
International.

Simple Solutions for EU FMD Compliance.

To meet fast approaching regulatory compliance dates most pharma manufacturers are implementing required serialisation into their packaging lines now. Many have not yet started. Learn about simple, flexible, scalable configurations, hardware solutions and labeling functions that fit and support one or more packaging line(s).

#### GAMP

René van Opstal,  
Chairman International Society for  
Pharmaceutical Engineering Netherlands.

Lean validation.

Save time in you validation processes by efficient usage of procedures based on the Good Automated Manufacturing Practices method to ensure that required quality levels are met and downtime is decreased for packaging and handling processes.

#### Robotics in Pharma

**ABB** | Martijn Dubbelman,  
Sales Engineer Robotics at  
ABB Robotics.

Degrees of robot collaboration.

There are different degrees of collaborative operation. Learn how human and robots can work in close proximity to each other.

### About Inno4life:

Inno4Life specialises in complex customer-specific equipment and services projects in the Life Science industries, primarily the Pharmaceuticals (Human and Animal), Medical & Clinical Instrumentation and Food industries.
